NCFE - Entry Level Award in Personal and Social Development - Unit 9 Managing Social Relationships

1.1 Please identify situations in which you need to interact with others, and detail positive behaviours you should use when interacting.

The Places we have to socialise are: At our work places, school, college, when online and gaming at funerals and weddings, we have to be social. Interviews are where we have to be social. At outside places like fairs and parks. Also, Christmas is a very social place and time. you have to spend time with family and friends.

Ways I should be with people are: To act happy around them even if you're having a bad day. Ignoring silliness like when they are mad at you for no reason. Respect everyone and treat them how you want to be treated, by them back. Be nice, kind to them and share your things with them.

WWW- Lots of good situations given here, and good detail on positive behaviours.

EBI- Are there other positive behaviours you can think of.
