

## For Everyone at Rosedene

While our pupils worked from home during the Covid-19 pandemic, we give them various projects to help keep them motivated and happy. We asked some of them to write a poem about HOPE for the elderly residents and staff at Rosedene care home.

This is what they wrote...

### HOPE

#### For the Staff...

Thank you for looking after the people in your home  
and making them feel they are not alone.

Giving them care  
and helping them to cope.

will help them realise there is always hope. [By Ethan](#)

#### For the Residents...

Hope comes in all shapes and sizes  
and along the way you get surprises.

Don't lose hope you are not alone  
you have us at Cherry Tree,

we will soon visit your home. [By Ethan](#)

#### For Staff...

You work so hard  
you give your all  
caring, sharing  
but most of all,

the love you share  
the way you are

you give us hope  
and that goes far. [By Amber](#)

#### For Staff...

To all care workers on the front line  
don't fret everything will be fine.

Once this is all over, we will remember when you were kind and nice.

These tough days when you give the biggest sacrifice.

As the days get longer and the evenings bright.

We won't forget to clap for you on a Thursday night.

So, thank you again our heroes without capes,

You will be a massive part of our great escape. [By Amber](#)

### For Everyone...

H is for happiness, good health and hope  
O is for opportunity, opulence of wealth and gold  
P id for pride, precious memories of past events  
E is for eternal love and all enchanted as above. [By Jack](#)

### For Everyone...

Looking out of my window  
I see birds flying high, chirping.  
I see the sun shining and the breeze making the leaves on the trees  
dance.  
The clouds are moving slowly changing shapes as they go,  
and in those clouds, I see dogs riding on the backs of angels  
This is a sign of hope. [By Ruby](#)

### For Everyone...

Dear Rosedene,  
Here we sit in cosy seats  
dreaming in times gone by.  
Churchill, the war, rations, despair  
praying our loved ones don't die.

We lived through times of unsure plans  
we worried all over worst fears.  
Showing smiles, hiding dread  
holding back the tears.

When we are challenged just like before,  
we will show our stronger sides.  
We will keep our faith and love and hope,  
until this time subsides. [By Amber](#)

### For Everyone...

Hopeful – yes, I am. Hopeful for today.  
Hopeful for the future and hopeful every day.  
Take some music and use it.  
Let it take all your stress away  
and be hopeful there will be a way.  
I know this isn't easy but it's all ok  
because you just have to be hopeful. [By Harmony](#)
